## BRIGHT EYES

You can say goodbye to dark undereye circles, thanks to DuWop's Circle Block, a revolutionary two-part system.

1. Cancel out the darkness with the red-tinted treatment (red blocks blue tones).
2. Apply the cream concealer.

Available in three skin shades. \$31. — D.M.

## Size Matters

For many women, discovering their true shoe size can feel like a never-ending pursuit. A simple tip is to delay buying your shoes until the afternoon or end of day. Your feet swell throughout the day – in some cases up to a half-size! Waiting until the evening will give you a more realistic and supportive fit.

## FASHION CARE

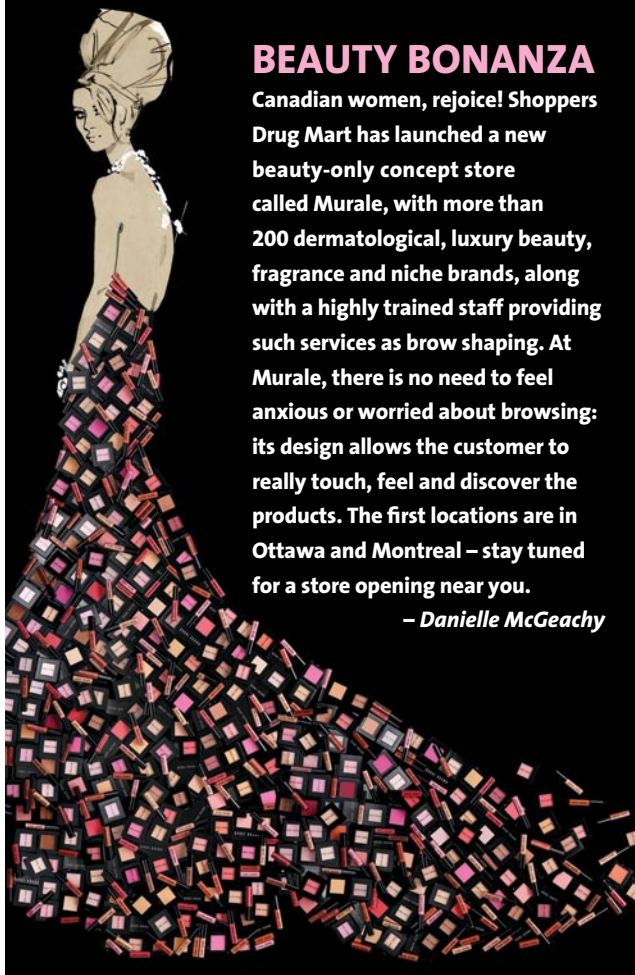

Preserve your much-loved garments with Tide's newest and most fashion-friendly offering, Tide Total Care. It contains a protective fibre complex that slows down the aging process of fabric, keeping clothes looking like new. \$10 for 20 uses.

**TIP:** For a quick way to prevent those pesky buttons from falling off your favourite fashions, place a dab of clear nail polish on the threads holding the button. The polish acts as resin that reinforces the thread, making it less likely to unravel in the wash.

## BEAUTY BONANZA

Canadian women, rejoice! Shoppers Drug Mart has launched a new beauty-only concept store called Murale, with more than 200 dermatological, luxury beauty, fragrance and niche brands, along with a highly trained staff providing such services as brow shaping. At Murale, there is no need to feel anxious or worried about browsing: its design allows the customer to really touch, feel and discover the products. The first locations are in Ottawa and Montreal – stay tuned for a store opening near you.
